The screenshot shows the FASonline Pesticide MRL Database interface. At the top, there is a navigation bar with links for 'Pesticide MRL Database', 'Veterinary Drug MRL Database', 'Questions?', 'Market Information', and 'FAS Home'. Below this, the page title is 'Pesticide MRL Database'. Underneath, there are 'Pesticide Directions' which include: 1. Select a Blue Commodity Type Tab - Plant Product Commodities, Animal Product Commodities, or All Commodities. 2. Select Commodities, Pesticides, and Markets to Include in Database Search. The main content area has three tabs: 'Plants Product Commodities' (selected), 'Animals Product Commodities', and 'All Commodities'. A green banner instructs users to 'Please specify the commodities, pesticides, and markets per page below.' Below this, there are three tabs: 'Commodities' (selected), 'Pesticides', and 'Markets'. A search bar is present with the text 'Select a Commodity Below - or - Search For a Commodity' and a 'go' button. The main area displays a list of commodities with checkboxes, organized into three columns. The first column includes items like Acerola, Allspice, Amaranth, leafy, Ambarella, Angelica, dry, Angelica, stem and leaves, Anise, seed, Anise, star, Annatto, seed, Apple, Apricot, Apricot, Japanese, Aronia berry, Arracacha, root, and Arrowroot, tuber. The second column includes Fennel, seed, Fenugreek, seed, Fig, Flaxseed/Linseed, Fritillaria, bulb, Fritillaria, leaves, Garden huckleberry, Garlic, bulb, Garlic, great headed, bulb, Garlic, serpent, bulb, Gherkin, West Indian, Ginger, root, Ginger, white, flowers, Ginseng, root, and Goji berry.
